NEWS RELEASE

14 September 2007

POLICIES CONCERNING POST RACE REHYDRATION AND WATER BOWLS IN KENNELS

At its meeting of the 24th August, 2007 the Board of the GHRRA reaffirmed its existing policies concerning Post Race Rehydration and Water Bowls in kennels.

The Policies read as follows:-

POST RACE REHYDRATION

“At each race meeting the Club is to supply facilities for the immediate post race rehydration and hosing of Greyhounds by means only of mains running water.

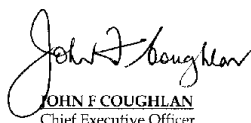

A Greyhound shall not be permitted to drink from a bowl, bucket or other receptacle following an event if that Greyhound is the subject of a post race swab.

Stewards will consider the welfare of the Greyhound and consult with the Veterinary Surgeon officiating at the meeting if appropriate.”

WATER BOWLS IN KENNELS

‘No drinking utensils or preparations of any kind will be allowed to be placed in the kennels or kennel block prior to or following the greyhound’s event.’

The above Policies are to be adhered to at all times.
